FIELD WORK 2023-24

DEPARTMENT OF ZOOLOGY

SREE NARAYANA COLLEGE, KANNUR

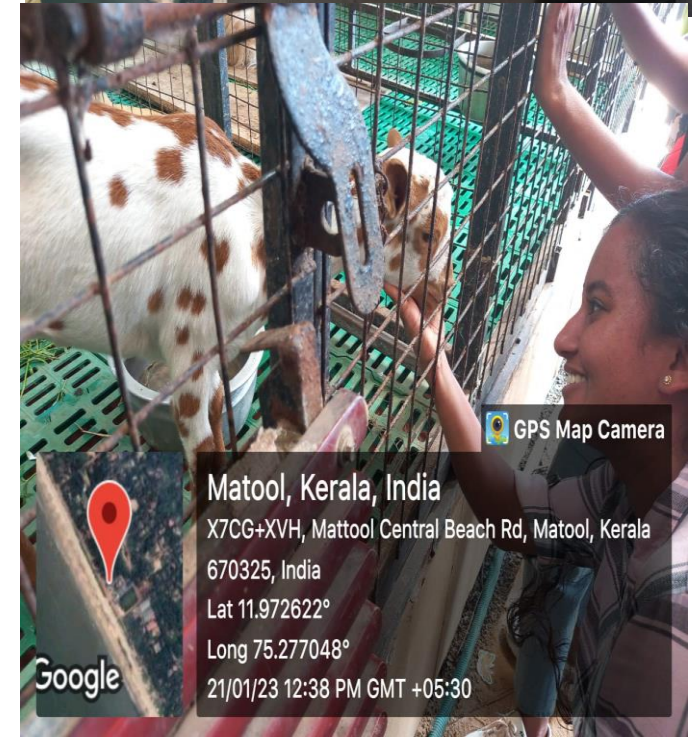

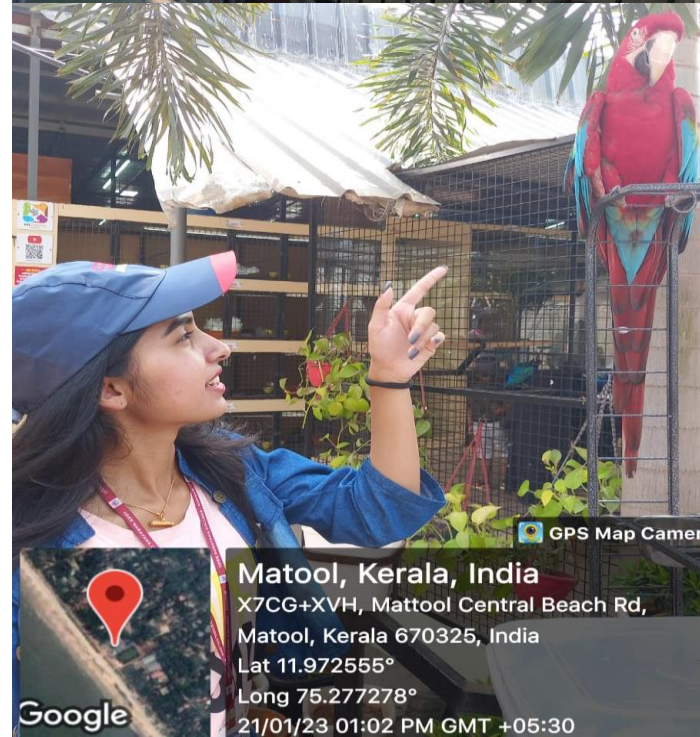

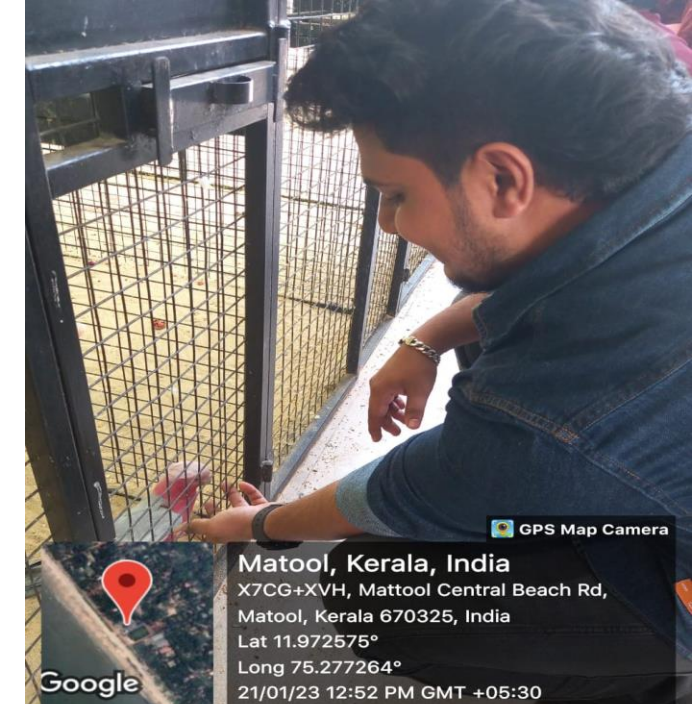

DEPARTMENT OF ZOOLOGY

Vth Semester BSc. Zoology(2021-24 Batch)

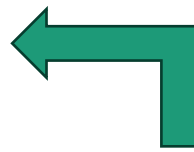

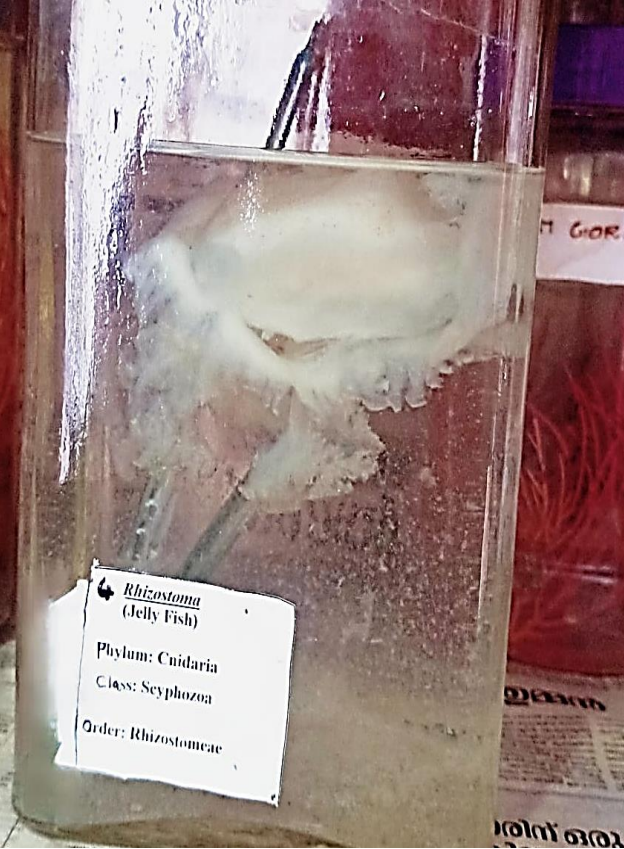

Date of Field study:21/02/2023

Final year BSc. Zoology students were taken for a one-day field trip on 21st January 2023. We visited the following places.

- 1. Parassinikadavu Snake Park:** Located in Anthoor Municipality, the Parassinkkadavu Snake Park is devoted to the preservation and conservation of snakes, many of which are progressively going extinct.
- 2. Mattool Pet Station, Kannur:** With over a hundred different animals, including iguanas, horses, ostriches, fish, and birds.
- 3. Mattool Beach:** Mattool is located 19 kilometres north of Kannur city. The Valapattanam River and Kuppam River meet the Arabian Sea at Mattool.

Jellyfish was collected from Mattool Beach on 21st January, 2023 during the field visit. Now it is preserved and kept in the Department Museum.

During the field trip, the students could see different groups of animals including both non-chordates and chordates. They could experience the animals in proximity, allowing them to observe their behaviors.
